

GRACE CHRISTIAN ACADEMY

NEED-BASED TUITION ASSISTANCE PROGRAM

Grace Christian Academy seeks to provide tuition assistance to those students in grades K-12 whose family can provide documentation of need.

Important Points:

- Students must have either re-enrolled or applied and have been accepted in order to be considered for tuition assistance. *If tuition assistance is not granted, enrollment/application fees are not refundable.*
- GCA may not be able to meet 100% of the demonstrated need for each applicant, and the number of qualified applicants may exceed the tuition assistance resources of the school. Therefore, there is no guarantee that every qualified applicant will receive tuition assistance.
- The average tuition assistance grant is not intended to cover the total tuition cost. In most cases the tuition assistance grant is no more than 20% of the tuition cost. The family is responsible for payment of the tuition and fees above the grant amount.
- No student is given tuition assistance based on academic or athletic ability. Merit-based scholarships of any kind are not provided.
- Applications must be completed and verified by March 31. Decisions for tuition assistance will be made in April. Availability of tuition assistance diminishes greatly for applications received after March 31.
- There is no guarantee of assistance from year to year. Parents must re-apply each year for tuition assistance.

The application and reward process for need-based tuition assistance is as follows:

1. Parents must apply for tuition assistance on-line through their FACTS account. FACTS requires verification of application information through submission of various documents including, but not limited to, tax returns and W-2 forms. *(Awards will not be considered until applications are verified; therefore, delay in submitting documents could result in forfeiture of award consideration.)* **Verified applications must be completed by March 31, 2016.**
2. The application cost is \$30. Parents should contact FACTS with application questions.
3. After the FACTS application review, GCA is notified of the amount of qualified need to be considered toward the student's tuition account.
4. The qualifying amount is reviewed, and an assistance amount is determined based upon a combination of factors, including: the amount qualified for, the amount of assistance dollars available, the academic effort put forth by the student and the conduct and attitude of the student.
